10/15

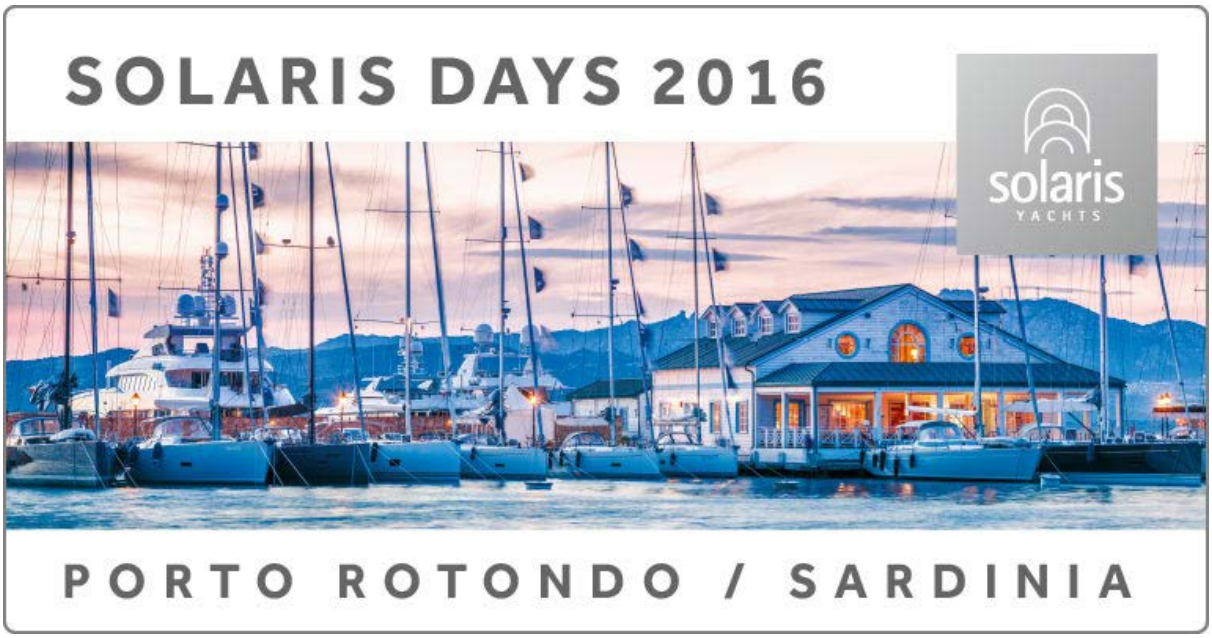
Dear Solaristi,

With the Barcelona and the coming Hanseboot our 2015 autumn boat show season is drawing to a close. In Hamburg, Diamond Yacht will present a fast Solaris 42 fitted out in bleached oak. You will find us in Hall B6, stand Nr. B6, A- 115.

We start this winter with a full order book and we would like to thank the whole team but especially our Solaris owners, who believe in us and who put their hobby and passion into our hands. Virtually the whole range is under construction at the yard; in our second yard in Forlì you can admire the 72 classic No. 2 and a Wally 115 under construction. In Forlì we operate the most advanced oven for high-tech yacht building which allows us to build yachts of over 100 feet.

SOLARIS 50 & SOLARIS 47

This model is closing another gap in our range and the newly developed deck incorporates all the innovations of the Solaris 50. At first glance, the most important aspects seen are the self-tacking jib as standard and all winches in the perfect position for short-handed sailing. A further characteristic of the Solaris 47 is the vast space below deck and the new wave piercing bow. Also added is the new and unique dinghy garage, which is exceptional for a yacht this size. The World premiere will be during the Düsseldorf boat show 2016.



The next Solaris days will be from the 2nd - 8th June 2016.

More information will follow soon.

We wish you a very nice autumn!

Kind regards,

Your Solaris Team
